

JAVA

From the website <https://demoqa.com/select-menu>

1.Under "Standard multi select": get "Volvo" and "Audi" then display the same in output console

2.Under "Old Style Select Menu": get "Indigo" and display in output console

CODE:

```
package selepratice;
import java.util.List;
import org.openqa.selenium.By;
import org.openqa.selenium.WebDriver;
import org.openqa.selenium.WebElement;
import org.openqa.selenium.chrome.ChromeDriver;
import org.openqa.selenium.support.ui.Select;

public class DpAssign {

    public static void main(String[] args) {
        // TODO Auto-generated method stub

        WebDriver driver = new ChromeDriver();
        driver.get("https://demoqa.com/select-menu");
        WebElement dropdown = driver.findElement(By.id("cars"));
        Select select = new Select(dropdown);
        select.selectByVisibleText("Volvo");
        select.selectByVisibleText("Audi");
        List<WebElement> elements = select.getAllSelectedOptions();
        System.out.println("Standard MultiSelect: ");
        for(WebElement ele:elements) {
            System.out.println(ele.getText());
        }

        WebElement dp = driver.findElement(By.id("oldSelectMenu"));
        Select se = new Select(dp);
        se.selectByValue("8");
        System.out.println("Old Style Menu: ");
        System.out.println(se.getFirstSelectedOption().getText());
    }
}
```
